Opinion of the Medical Board.

NOTE.— The answers to the following questions are to be filled in by the Board. As the object of these questions is, in the event of the man being invalided, to put the Commissioners of Chelsea Hospital in possession of the most reliable information based on the opinion of those best capable of judging, so as to guide them in deciding upon the man's claim to pension, clear and decisive answers should in all cases be given.

Expressions such as "may", "might", "probably", &c., should be avoided.

The rates of pension vary according to whether the disability is attributed to (a) ordinary military service, (b) active service, or (c) climate. It is therefore essential when assigning the cause of the disability to differentiate between them. *Vide* Articles 1085 and 1088, Pay Warrant, 1904.

active service  
Bullet wound June 2<sup>nd</sup>

Enteric Fever, Dysentery, Malaria, &c., contracted when on service abroad, are to be regarded as caused by ordinary military service, active service, or climate as the case may be.
